

A classroom scene with several students sitting at desks. In the foreground, a young boy with dark hair and a blue polo shirt is looking towards the camera. Behind him, a boy with glasses and a plaid shirt is holding a white tablet. To the right, a girl with brown hair is holding a black tablet. The background shows a blue bulletin board with various papers and a whiteboard.

By IRIS

Managing every area of  
school life just got easier,  
wherever you are.

Accessible Anytime.  
Available Anywhere.  
Increase Efficiency.

Join our growing community...

A cloud-based, integrated management information, HR and accounting software to support schools worldwide.

### Academics

Support the foundation of your academics with the right tools.

### HR

Comprehensive self-service HR designed to automate time-consuming tasks.

### Administration

Streamline and automate core administrative processes to save your staff members time.

### Payroll

Fully automated payroll processes and payslips to manage every staff pay run efficiently.

### Admissions

Manage new applications with powerful, paperless processes.

### Reporting

Use powerful reporting tools to gain better insights and support future planning.

### Communication

Enhance communications to increase engagement across your school community.

### Teaching

Give your teachers everything they need to help the school day run smoothly.

### Finance

Improve the efficiency of financial planning and reporting with an integrated accounting system.

### Wellbeing

Ensure every student is happy and healthy throughout their school career.

# A feature rich platform for every need

Flexible. Scalable. Your school, run your way.

Support the foundation of your academics with the right tools

# Academics

## Calendar

Create, manage and share multiple calendars to cover every aspect of school life - academic and extracurricular.

## External Exams

Manage every area of external examinations, from coursework and studying through to programming and seating plans. Plus, share results via Student Profiles and Parent and Student Portals.

## Internal Exams

Manage and administer complete exam cycles simply and effectively.

## Gradebooks

Record all grades, marks and test results in one centralised location to accurately track student progress and create tailored reports.

## Multiple Curriculum

Support multiple curriculums for 3-18 year olds, including: IB, Edexcel, Cambridge or your local national curriculum.

## Reports and Profiling

Create and compile interim and full end-of-term and annual reports for parents. Plus, student profiles provides a single destination for viewing complete student records.

## Staff Cover

Maintain an oversight of staff availability and absences, solve staffing challenges, and publish changes to alert your team.

## Student Tracking

Analyse students' academic performance individually or by group. Import data from multiple sources, convert test scores, and display data graphically before publishing via various channels.

## Teacher Cover

Manage staff availability and absences, and solve staffing issues efficiently with cover charts, calendars, timetables and multiple communication channels.

## Teacher Schedules

Organise and manage your teachers' time effectively, including the subjects they teach and the classes they run. Plus, assign students to sets or classes, plan the curriculum, and notify teachers, department heads and students.

## Timetables

Organise and share every school timetable imaginable. Flexible and easy to use, with multiple import options, this module is perfect for taking charge of the entire academic year.

Streamline key administrative processes by automating lengthy tasks

# Administration

## Census

Pull relevant data to complete supported government censuses.

## Data Protection

Obtain and record consent from parents and students, plus extract data for DSAR requests and comply with GDPR.

## Document Management

Upload and maintain all your documents, including address labels, letter templates, photographs and more.

## Human Resources

Take care of all your staff records, from appraisals and professional development to storing key information and documents.

## Online Payments

An online payment processing platform that makes every kind of incoming payment – and refund – possible, including payment over the phone, credit and debit cards, PayPal and PayPoint.

## School Manager

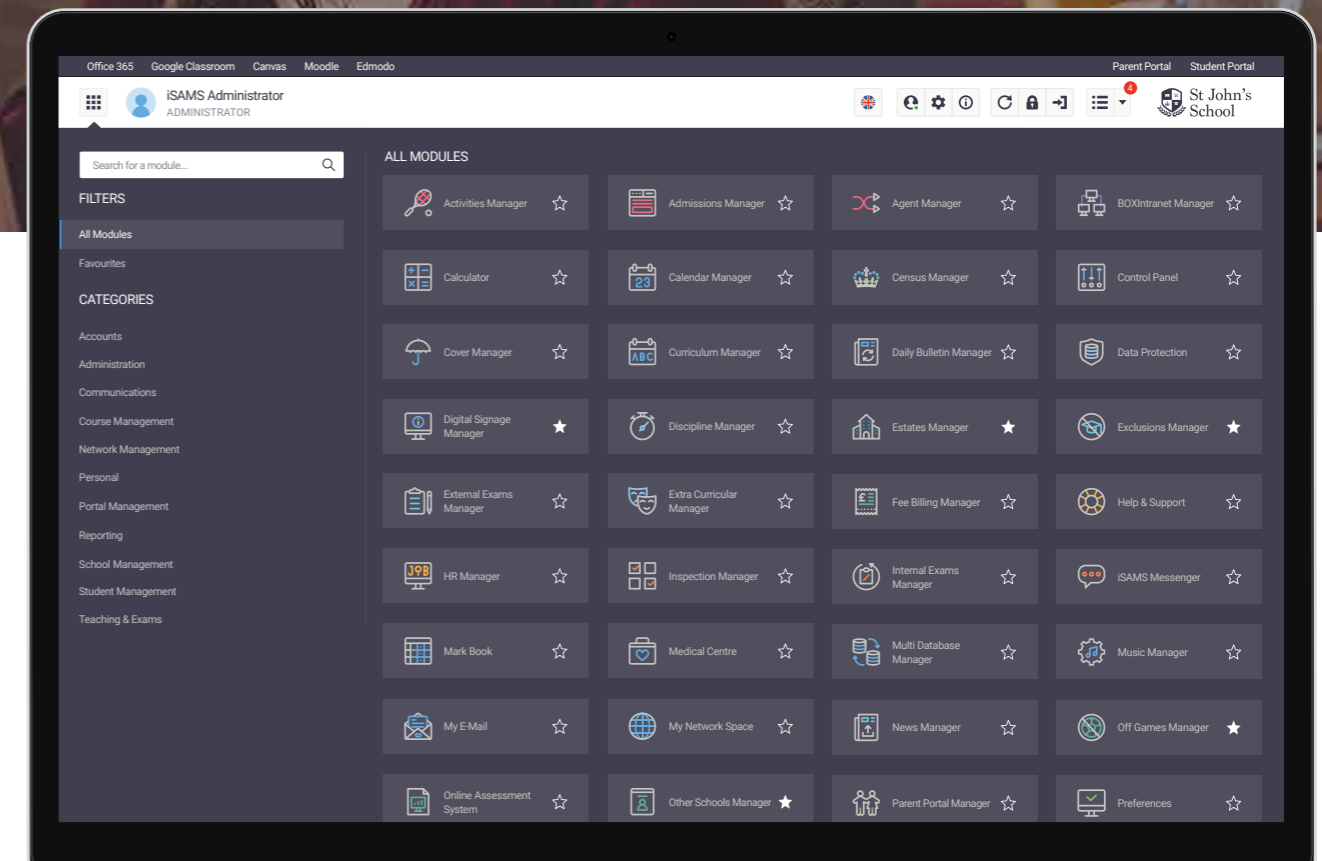

Oversee your school grouping structures to manage all classes, academic and boarding houses, year groups, and pastoral tutors.

## Student Data

Manage student data including family trees, admissions, census information, discipline records, passports and visas.

## School Register

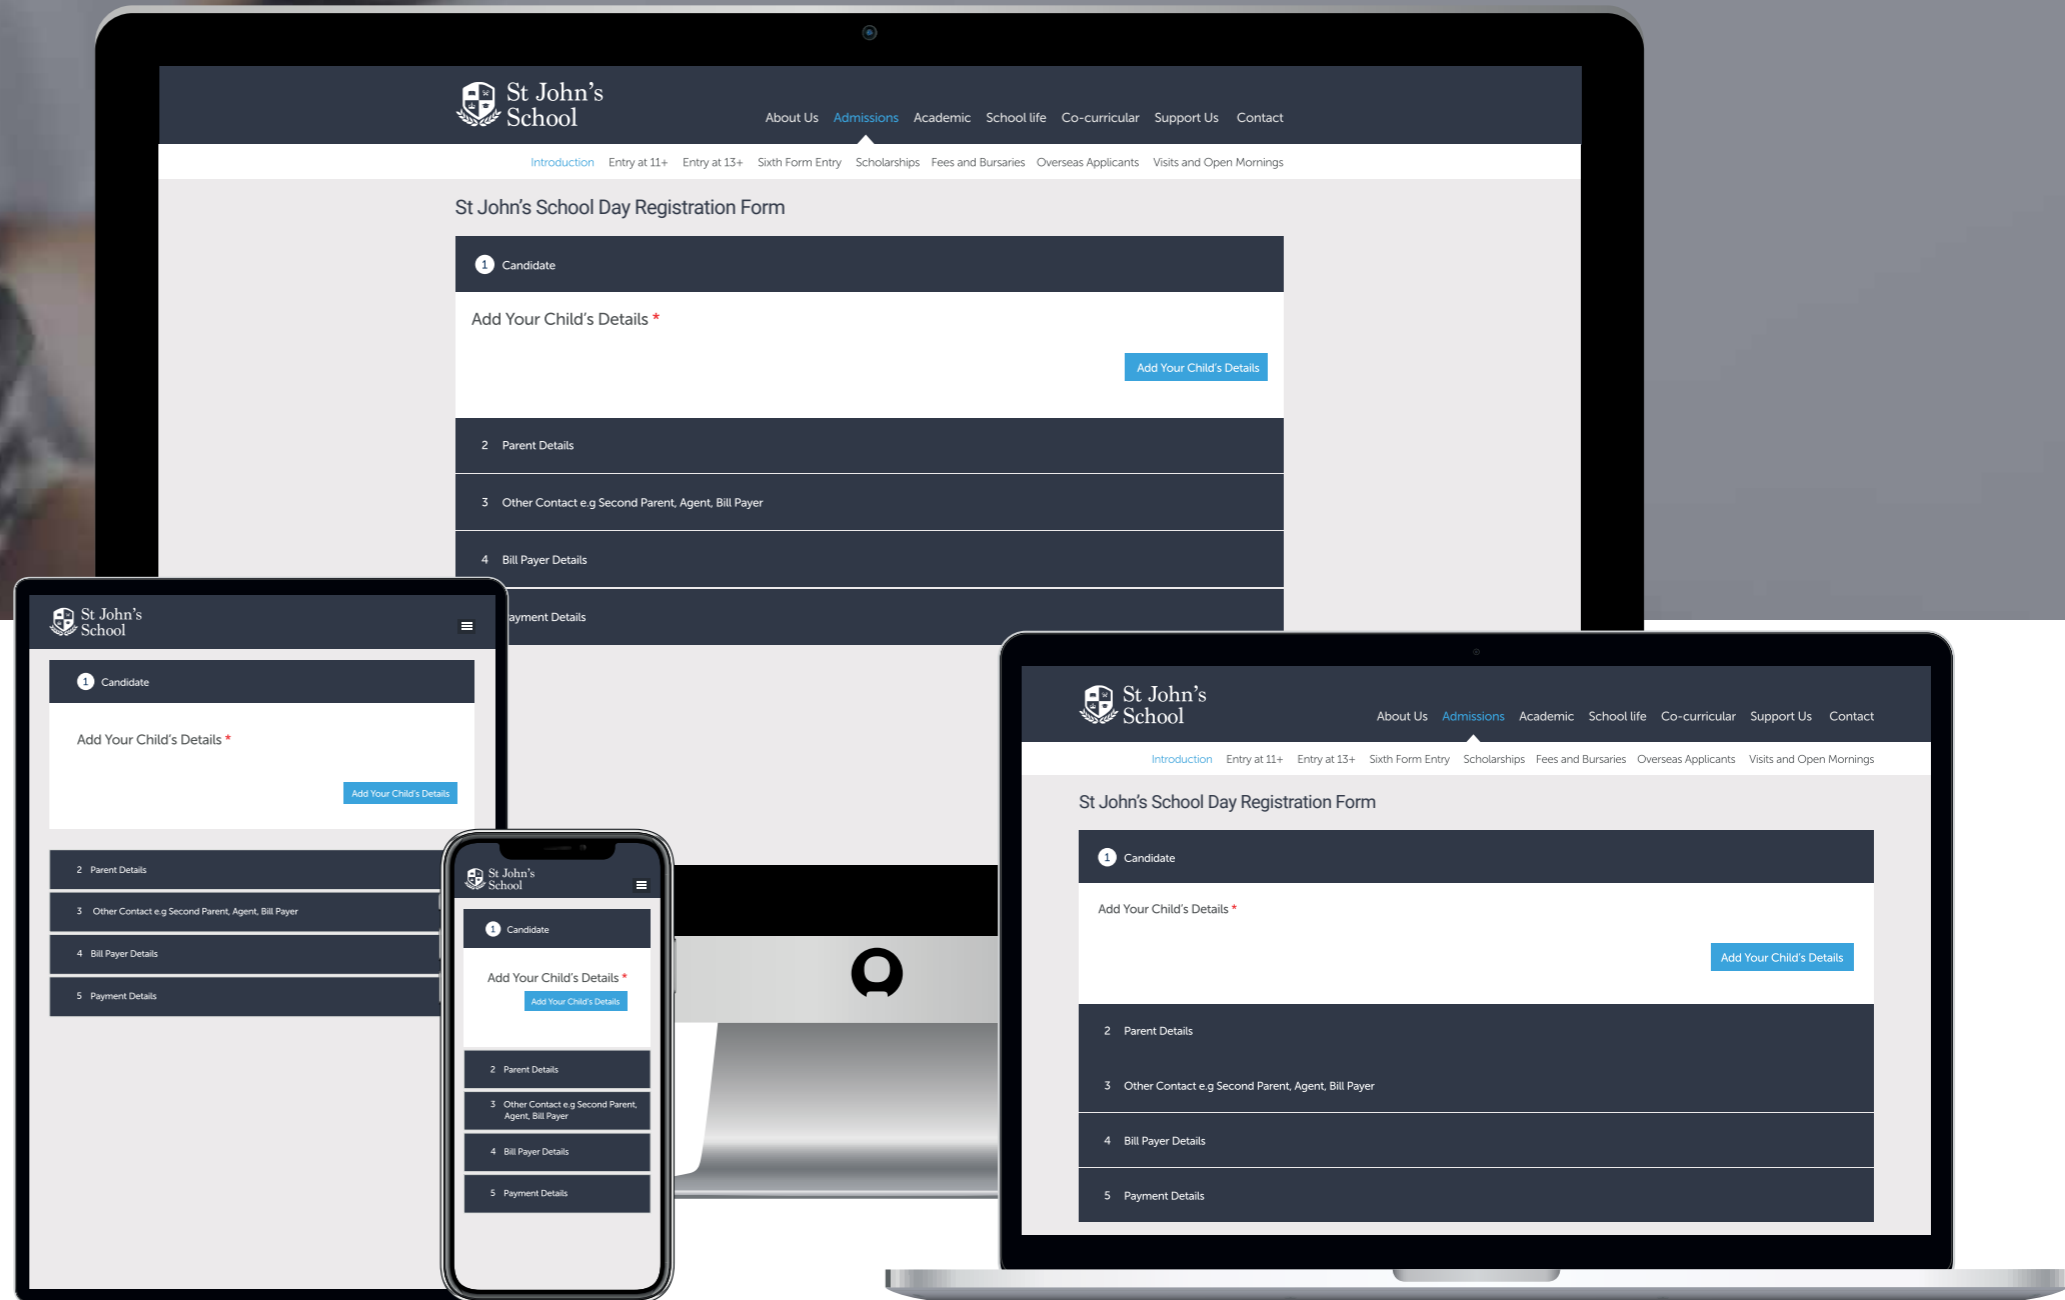

Manage and audit every aspect of attendance, including alerts for teachers, students and parents.

Manage new applications with powerful, paperless processes

# Admissions

## Admissions

Efficiently manage every element of your school's application and admission process, and build custom reports to obtain in-depth insights.

## Feeder Schools

Manage feeder schools and reference requests, and store related notes and documents.

## Agencies

Track and link unlimited numbers of agencies, applicants, alumni and current students, as well as logging visits and recording relevant notes.

## Online Portal

Capture and manage prospective student data directly via this web-based platform hosted on your school's website.

# Boost communication across your school community

# Communication

## Calendars

Easily create, manage and share multiple calendars to cover every aspect of school life.

## Daily Bulletin

Revamp your assembly and daily notice sheets, creating paperless bulletin entries with a start and end date, category and title.

## iStudent App

Empower students to take charge of their learning wherever they are, via their mobile devices.

## iParent App

Enhance parental engagement by sending key school news and updates directly to their mobile devices.

## News Alerts

Create professional-looking news articles and publish them across a variety of channels.

## Parent Portal

Give parents real-time insights into their children's education through this secure online space.

## SMS Gateway

Schedule, personalise and fully manage all SMS communications, including emergency broadcasts and more.

## Student Portal

Make it even easier for students to access key information, including their timetables, extra-curricular activities, school reports, and self-appraisals.

The image displays two screenshots of a school communication app. The top screenshot is a tablet view showing a user profile for Christof Anderson (canderson@isams.com), a navigation menu with options like 'My App Dashboard', 'Unread Notifications', and 'My Messages', and a main content area for 'Wednesday 25th January 2017'. This content area includes 'TODAY'S TIMETABLED ITEMS' (English lessons), 'TODAY'S BULLETIN' (URGENT silver Duke of Edinburgh), and 'TODAY'S EVENTS'. The bottom screenshot is a smartphone view showing a 'Take Register' screen with a list of students and their attendance status (Present, Absent, etc.).

An integrated accounting system to efficiently manage your accounts and budgets

# Finance

## Accounting

Improve accounting, consolidation and business intelligence with predefined and custom reports, and auto-bank reconciliation.

## Expenses

Record expenses and outlay against internal or external projects and managers to approve, add receipts and submit to line managers.

## Fee Billing

Generate bills and add charges in several different ways for specific applicants, current students and alumni.

## Fixed Assets

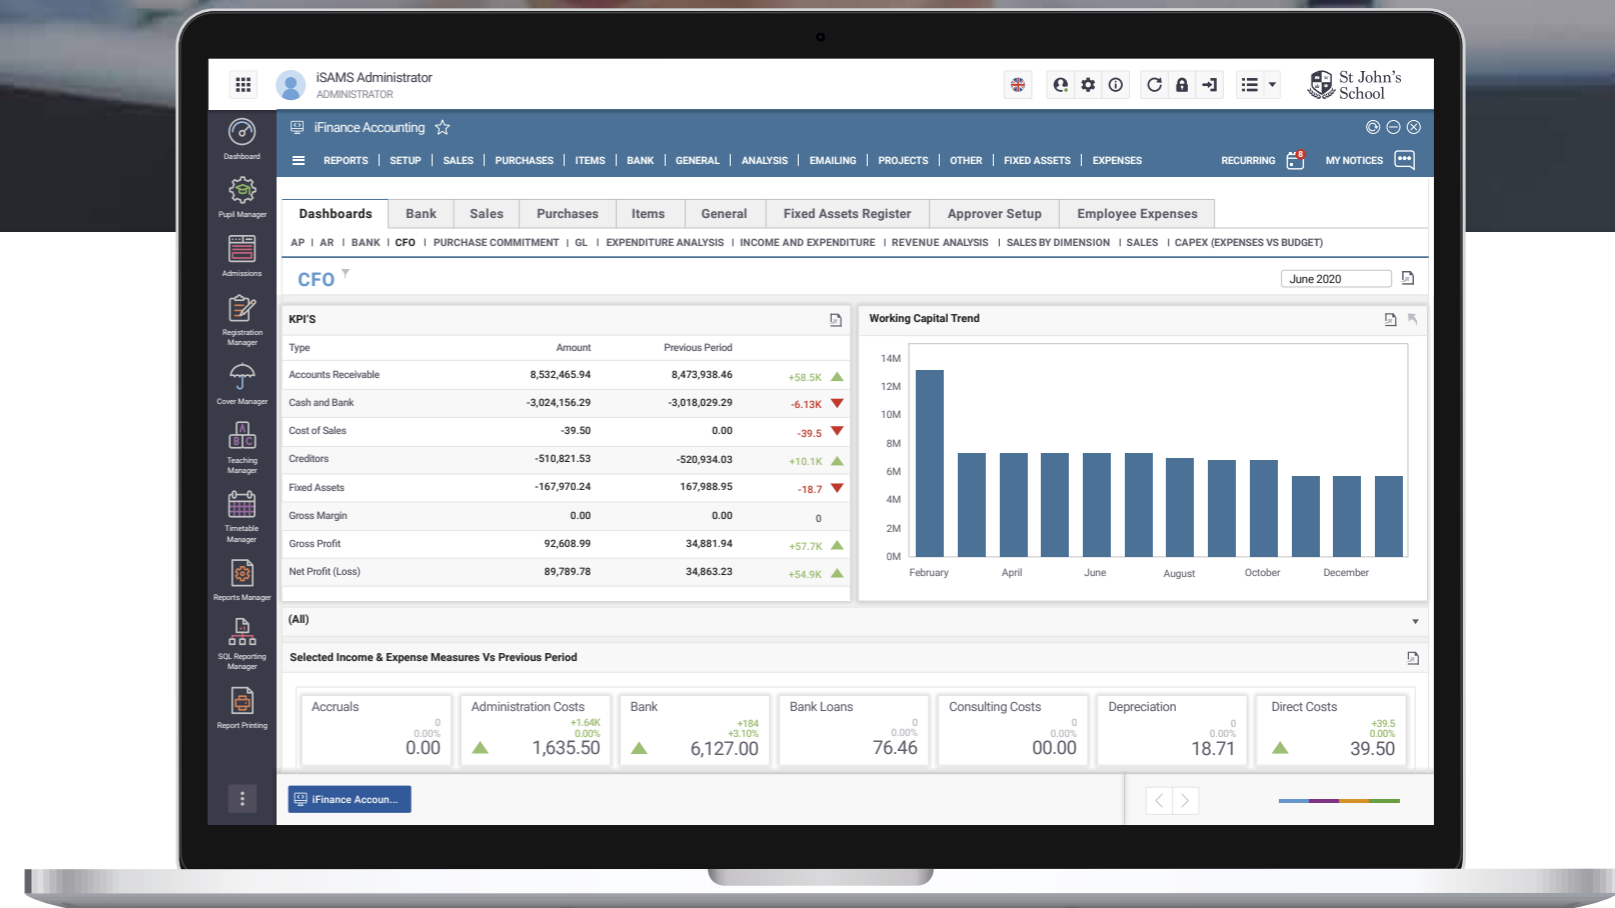

Manage and store all school and group assets via this single database, without switching between multiple systems.

## Stock

Integrate with iPOS, shopping cart, CRM systems and more to automatically track stock levels.

## Workflow Approval

Automatically send paperless POs and purchase invoices, adding customisable layers of approval and generating an auto-approval process.

# Comprehensive self-service HR designed to automate time-consuming tasks.

# HR

## Expedite Communication

Send key messages and requests to dashboards or by mail-merged broadcast email and even set tasks, reminders and alerts. Add important messages to pop up at log-in such as Covid-19 vaccine updates, expense deadlines or new training courses.

## Self-Service Dashboard

Put teachers in charge of their personal information and streamline repetitive tasks. Staff can view their employment terms and benefits, school handbook, payslips and manage holiday and sick leave requests.

## Immediate Insights

Real-time, graphic representations of everything from staff demographics to attendance levels, calendar overviews, staffing levels and more. Plus automated notifications of any new developments and tasks as and when they appear.

## Rapid Reports

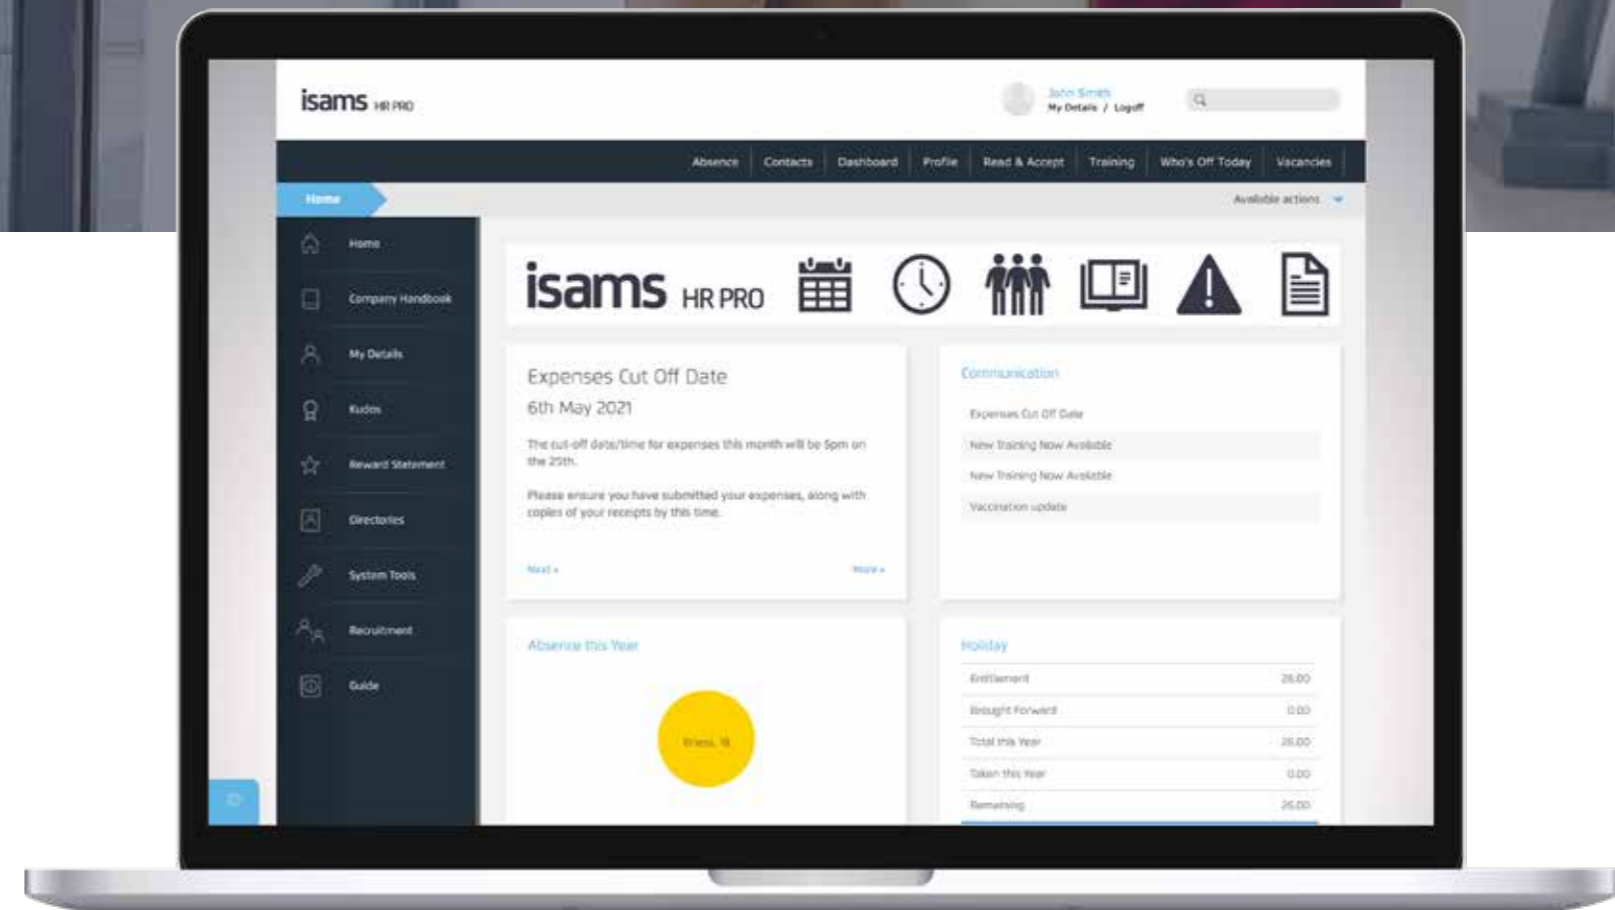

Access a library of pre-built reports for any area of the software. Schedule repeat reports running at the intervals you choose, including build and schedule custom reports on demand. Effortless analysis of every area of staff employment, plus a full audit trail of every staff member on the payroll.

## Compliant, Secure Storage

Guarantee compliance with GDPR and other personal and professional data requirements with secure cloud-based storage that's updated in real-time and accessible by authorised staff members from anywhere, through any device.

## Mobile App

Employees can make use of 'tap in' and 'tap out' functionality via the HR Pro mobile app, or access HR Pro via a pop-up window in iSAMS.

# Manage your staff pay run through one HMRC-recognised, cloud-based system.

## Payroll

### Interactive Dashboard

A centralised overview of set-up tasks, monthly reporting, year-to-date payroll costs and key metrics.

### Synced Employee Data

Current, former and joining employee information is synced with iSAMS HR Pro.

### Auto-Pilot Payroll

Automatically send out all employee payslips at a chosen date and time.

### Easy Access Payslips

Employees can receive an encrypted email or log in to a secure portal to easily view payslips.

### Quick Additions and Deductions

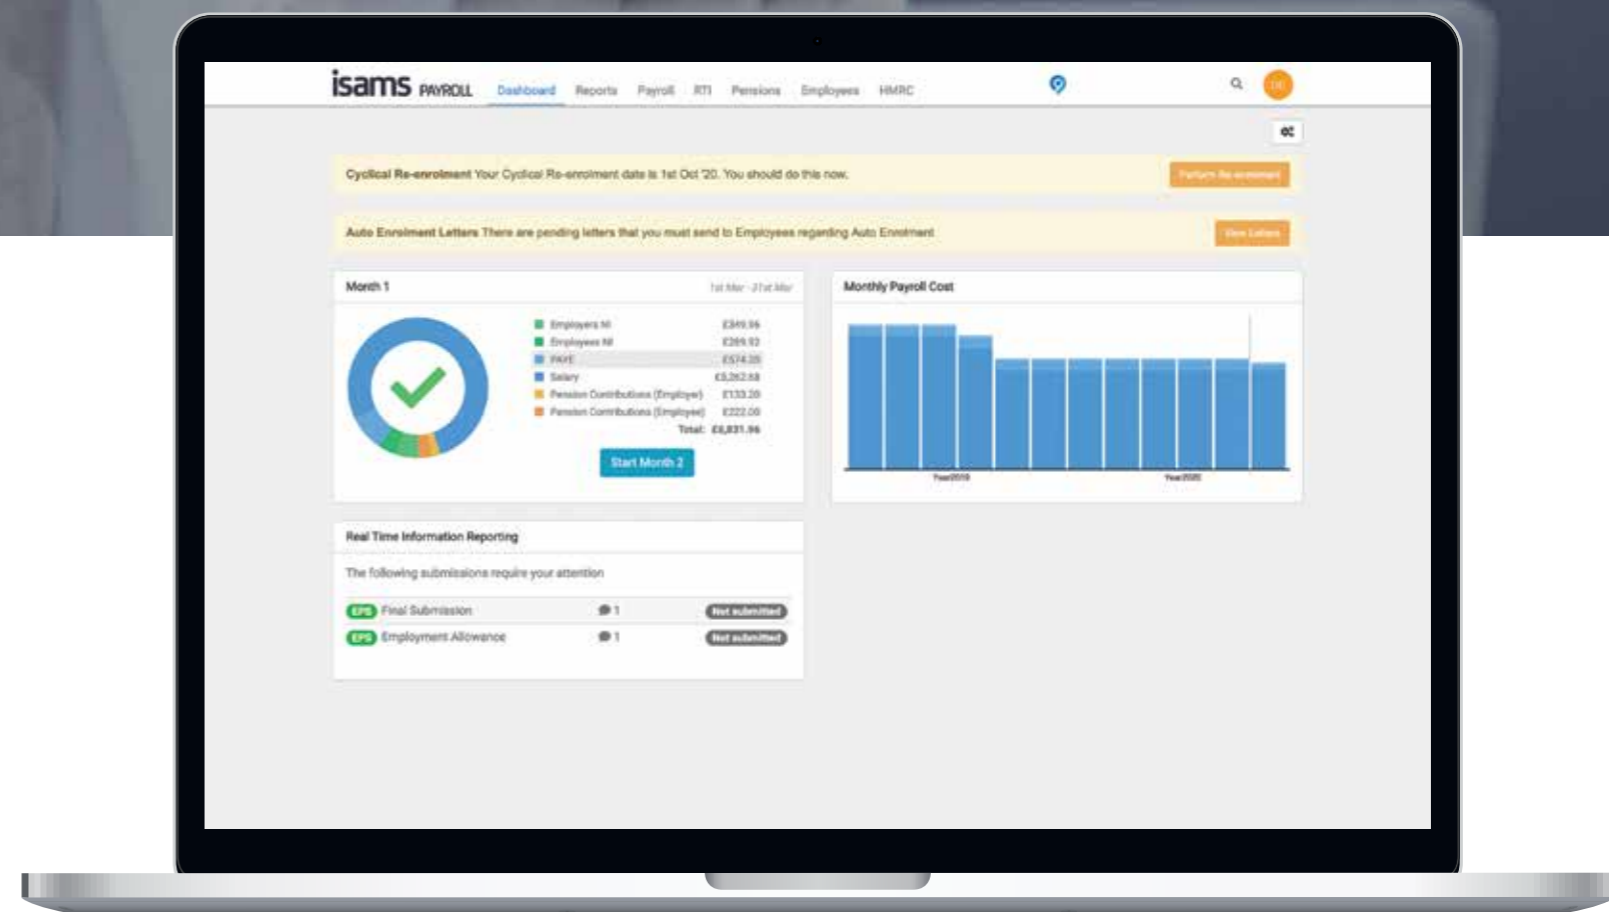

Quickly create additions or deductions, download a summary of the month's payroll, pension contributions and gross to net.

### Real-time Reporting

View and drill down into FPS, EPS, NVR and other interactive, downloadable reports.

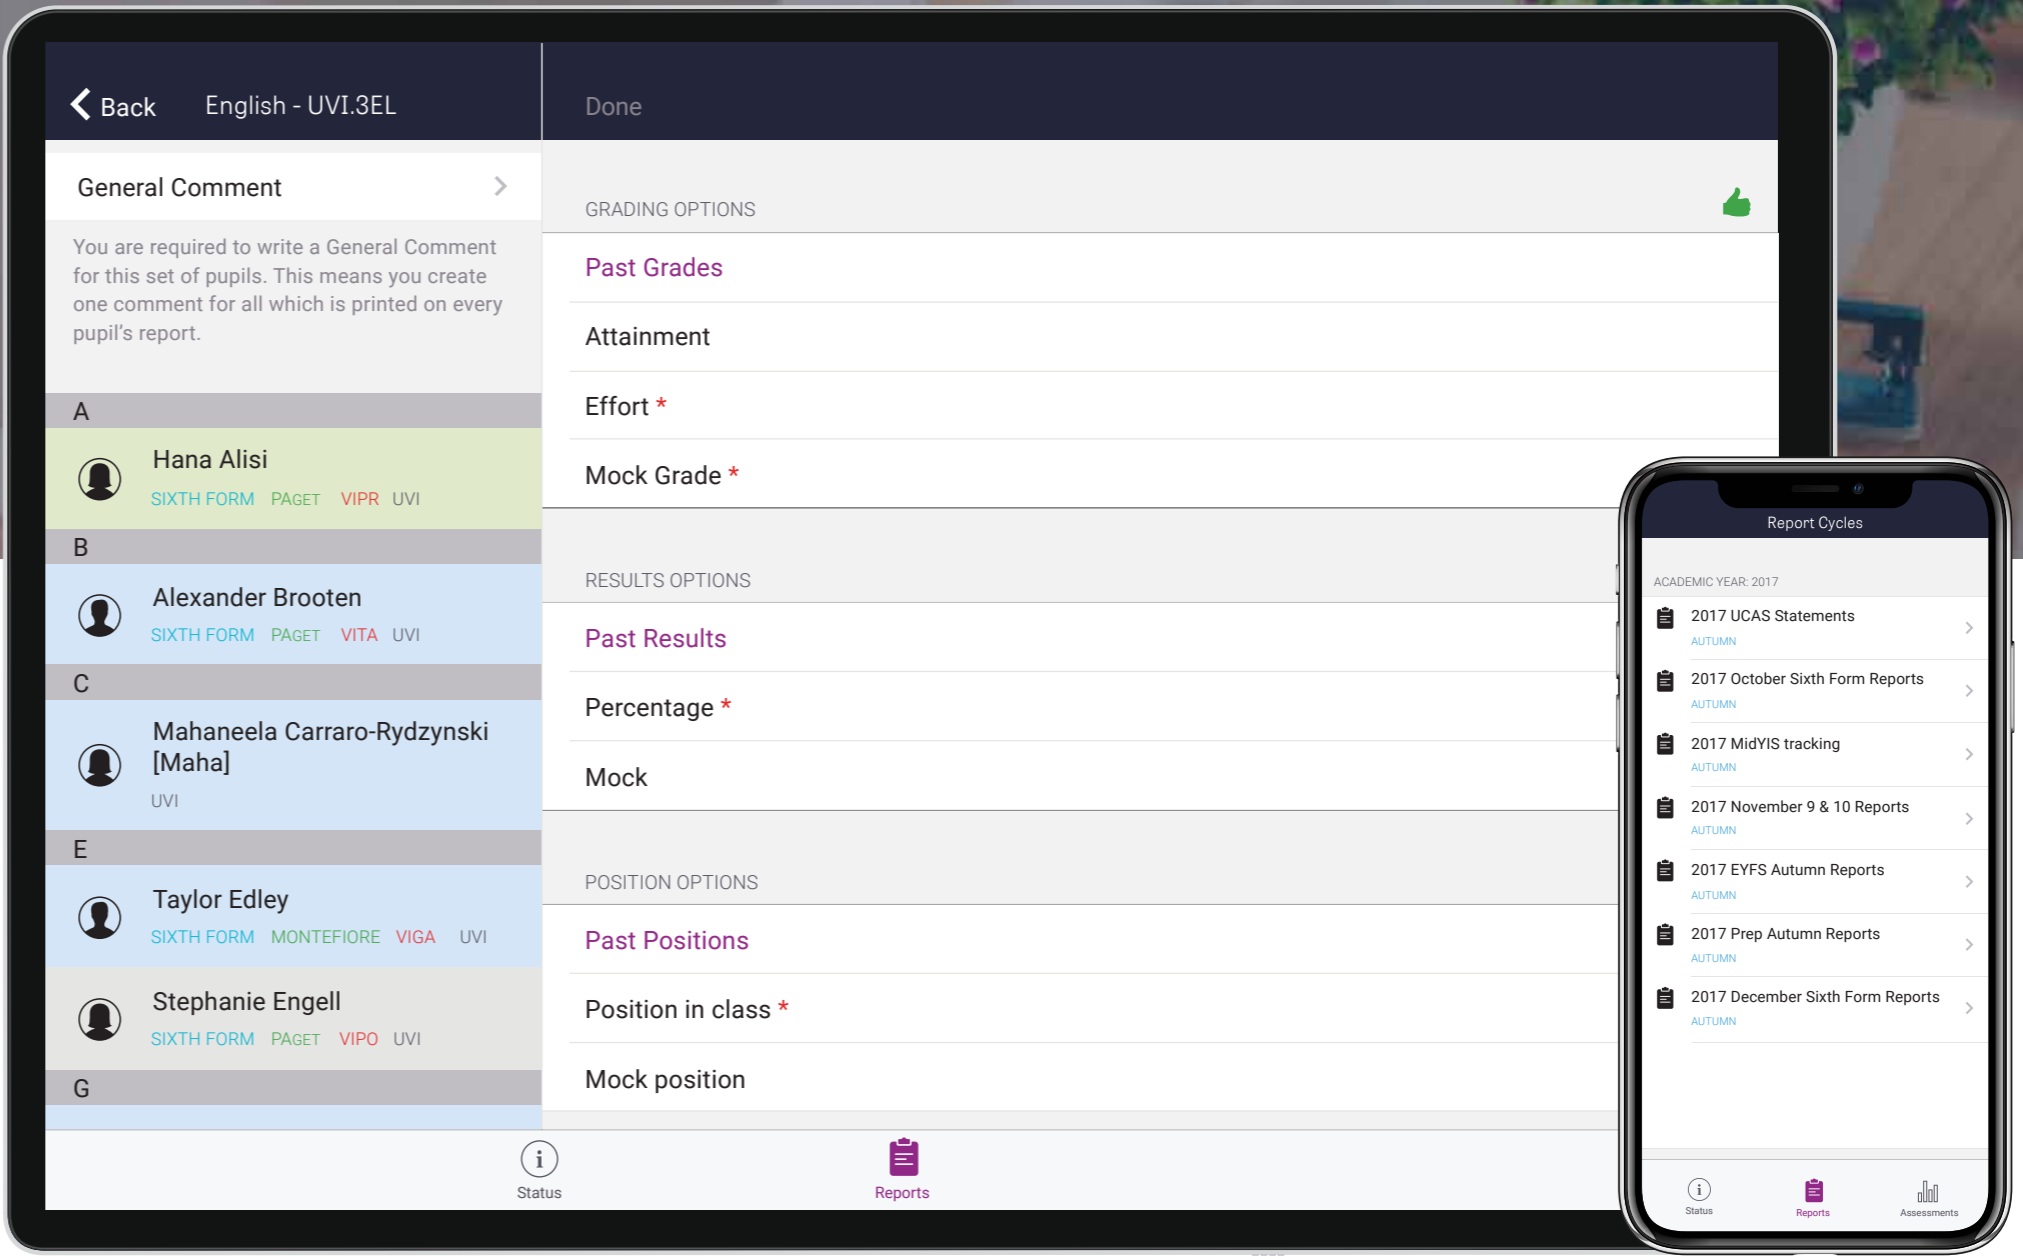

### Statutory Reports

Instantly access all relevant HMRC templates. Employee, pension and pay run reports are available as standard.

Use powerful reporting tools to gain better insights

# Reporting

**Assessments**

Show all school reports and assessment data broken down by reporting cycle.

**iReport App**

View and set the status of reports, see past reports and write new reports for each student.

**Custom Reports**

Build custom report outputs for students and parents, as well as creating predefined, custom and consolidation accounting reports.

**School Reporting**

Generate school reports, view assessment data by reporting cycle, and build custom report outputs.

# Give your teachers everything they need to help the school day run smoothly

## Teaching

### Gradebooks

Record all grades, marks and test results in one centralised location to accurately track student progress and create tailored reports.

### iTeacher App

Give teachers access to key school information on the move, including student profiles, timetables, cover availability and registration details via their mobile device.

### iReport App

Write and submit grades, assessments and school reports wherever you are - on school trips, in the classroom and on the move.

### Registrations/Attendance

Mark students as present or absent and store information such as lateness, reason for absence, or attendance outside of the traditional registration times.

### Report Writing

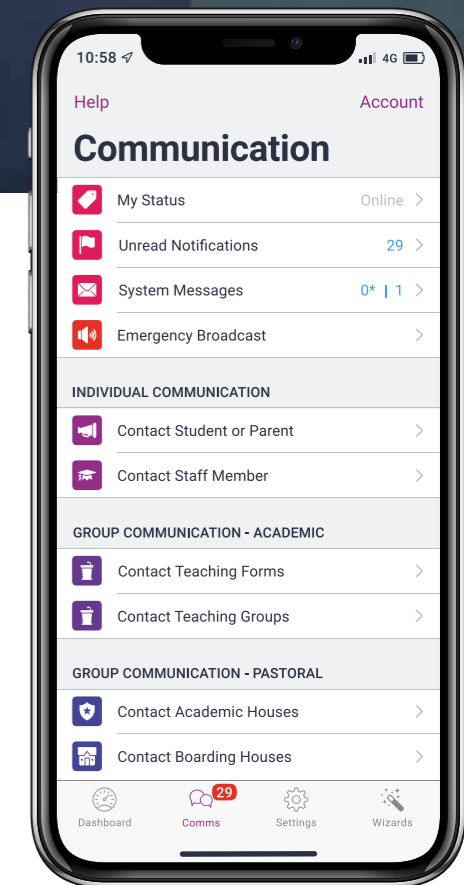

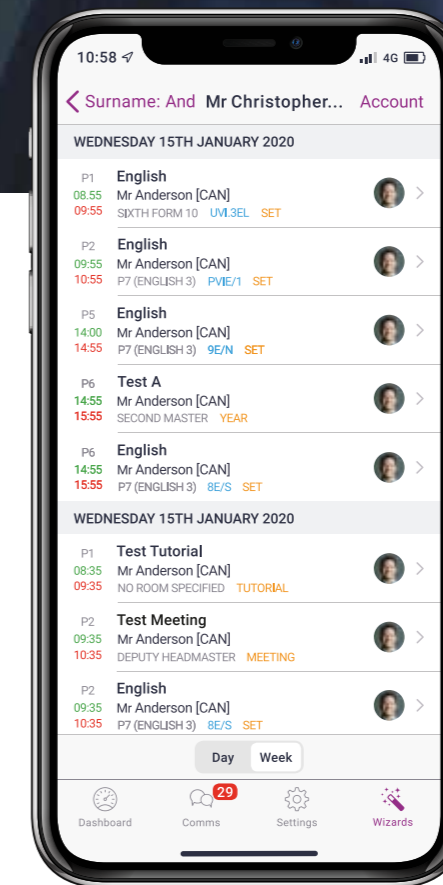

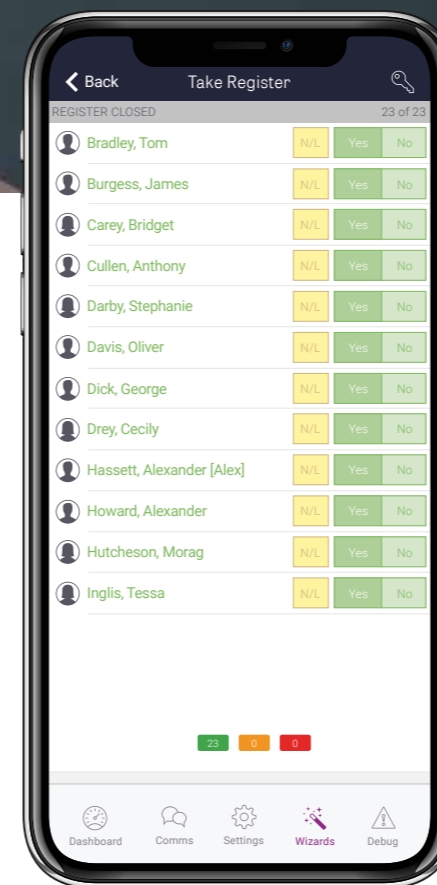

Create and compile interim and full end-of-term and yearly reports, in addition to bespoke school reports.

### SMS Gateway

Send SMS messages directly from the iTeacher App to all staff, students and parents – or specified groups – as required.

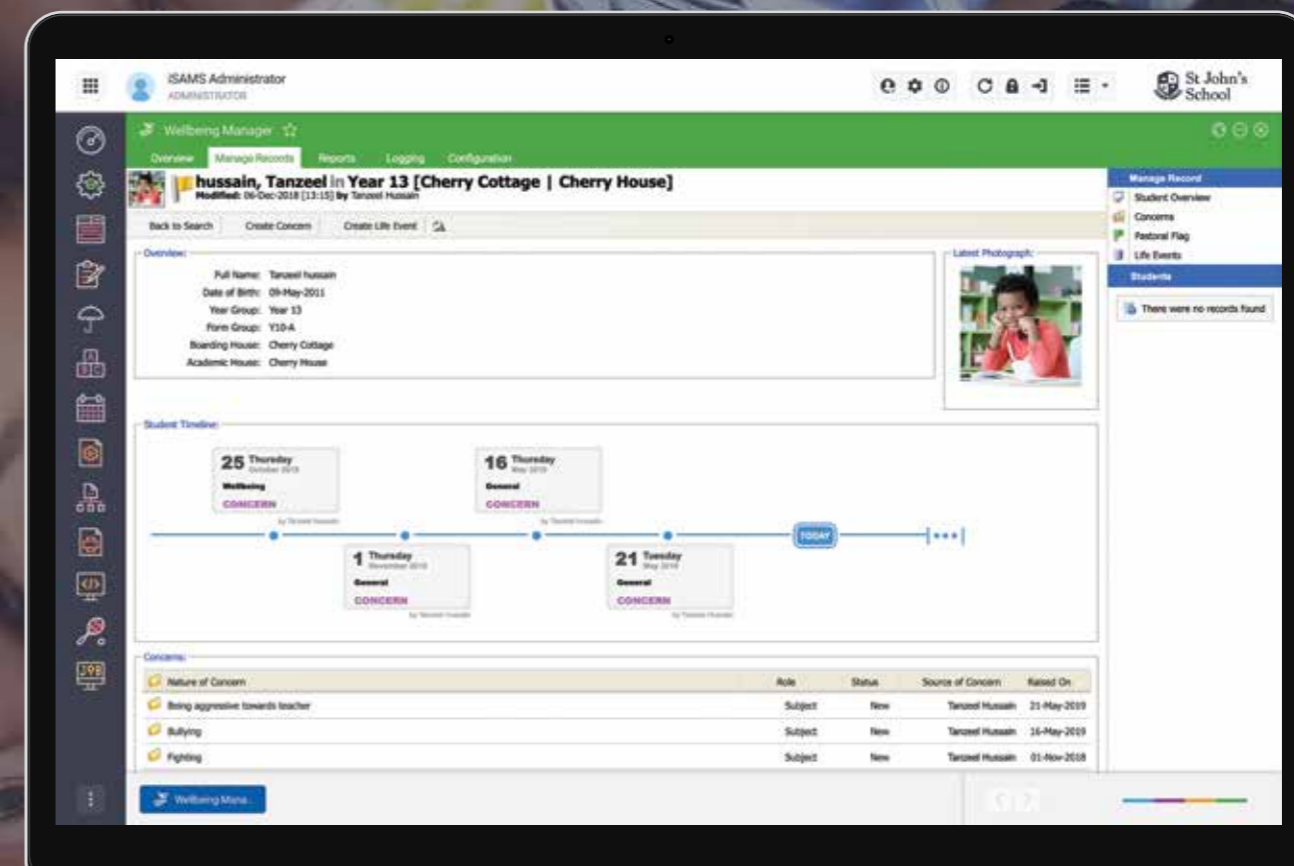

### Student Manager

Access student names, contacts, and school information including health alerts, SEN details, family trees, and contact cards, as well as nationality flags.

# Ensure every student is happy and healthy throughout their school career

## Wellbeing

### Activities

Track every student's extra-curricular activities, from Duke of Edinburgh awards and sports to drama and social clubs.

### Discipline

Organise every aspect of detentions, including attendance, notifying relevant teachers, record-keeping, and updating the Parent and Student Portals.

### Exclusions

Maintain accurate and up-to-date records of excluded students using government standard codes, and document meetings, outcomes and appeal hearings.

### Medical Centre

Manage stock and medical records, and maintain a full inventory, with this advanced health centre for all students and staff members.

### Off Games

Maintain your school's register of students not attending games, including notes and reasons for absence, variable date ranges, and more.

### Reward & Conduct

Manage every area of positive and negative student conduct, with email notifications to inform chosen individuals and the ability to publish information to Parent and Student Portals.

### SEN

Organise and maintain records of your school's gifted, talented and special educational needs students.

### Student Profiles

View every detail of an individual student's school career via complete student records.

### Student Wellbeing

View and log any wellbeing of child safeguarding concern, record onward actions and monitor their status - all whilst using the staff notifications features to ensure identified personnel are aware and kept updated.

# Why iSAMS?

## Sophisticated Software

### Greater accessibility

Hosted in the cloud iSAMS is accessible anywhere.

### Long-lasting solutions

A modular architecture to build your own system and grow with it.

### Make it your own

Add your own branding to the customisable front-end.

### Easy to use system

Feel the benefits of intuitive system navigation.

### Protect your data

With advanced security technology, your data and assets remain secure.

### Innovative technology

Developed with the latest, most reliable server and client-side technology.

## Full Support Service

### Updates, Upgrades and Maintenance

Enjoy regular system enhancements, with bi-weekly updates scheduled at times of minimal use.

### Hosting

Take advantage of our hosted server, providing excellent speed, performance and security.

### Training

Receive module-specific training or whole system overviews, conducted by one of our specialist Trainers.

### Support

Reach our dedicated Support team with live support across multiple time zones and Service Centres in the UK and Australia.

### Reporting Services

Our Reporting Services team are experts in extracting data from your system and presenting it in easy-to-read formats, helping you with all your reporting needs.

### Customer Account Managers

Maximise your use of iSAMS to meet your school's needs, with advice from your dedicated Customer Account Manager.

### iCommunity Site

Access all product, company and community news through this online forum, where you can also connect with peers to share new knowledge and ideas.

### Marketplace

Find best-of-breed software solutions at the iSAMS Marketplace, to integrate disparate systems and streamline key school processes.

### iUniversity

A dedicated online platform for on-demand iSAMS learning.

# Innovative Technology

---

## Cloud or on-premise hosting

Fully managed, secure hosting in the cloud.

---

## Comprehensive reporting

With enterprise tier reporting and full access to your database, we offer a complete Business Intelligence platform.

---

## Simple SaaS Pricing

Pricing to suit your school, with no upfront costs and prices calculated by student numbers.

---

## Single web-based architecture

A single database solution accessed through one intuitive interface.

# Powerful Integrations

---

## Approved Integrators

Explore our extensive range of approved integrators, giving you access to best-of-breed third-party software that syncs seamlessly with your MIS.

---

## Batch API

Extract data from the iSAMS system in a standardised format through our Batch API, without having to query the database directly.

---

## Comprehensive set of APIs

Our APIs allow for a seamless integration with third-party software using industry standard API technology, so they can take full advantage of well-known protocols.

---

## Developer Portal

Access our comprehensive development toolkit and related literature through our Dedicated Developer Portal.

---

## In-house School Development

If you develop your own apps and software, have the option to plug them into the iSAMS MIS.

---

## Rest API

Access data in real-time to perform data reads and writes, and easily integrate data into the iSAMS system using the same business logic that our system does.

---

## Single Sign-on (SSO)

Offer users a single sign-on option to enjoy a seamless experience across multiple domains.

---

## Supported Integrations

Use our wide range of integration services including, but not limited to: Office 365, Google Classroom, Canvas, Moodle, Edmodo, Active Directory, Microsoft SIS Sync and ManageBac.

# Satisfied schools

## 1,100+ schools and counting have made the switch to iSAMS

"iSAMS is the most intuitive, flexible and user-friendly school MIS that I have come across in my career so far. They are progressive and up-to-date with the latest technologies and recently, with the release of their apps, it has positively transformed the way we manage various in-house processes and improved our parental engagement and communication."

**Benoy Ittyavirah – Director of IT, Staff Training & Development**

Wycliffe College, Gloucestershire, England

"Our school was looking for a student information system which could integrate well with other systems and provide the level of customisability we were looking for, iSAMS was the only one which gave us this!"

**Jacob Martin – Director of Teaching & Learning**

International School of Zug and Luzern, Baar, Switzerland

"The support team is quick to respond to queries and we now benefit from extended links via the iSAMS community. The on-site training offered in school is fantastic, providing bespoke development and support for a small group of users at good value for money."

**Louise Orton – Deputy Head, Teaching & Learning**

Sherborne Girls, Dorset, England

"Since moving to iSAMS the day-to-day management of our school data has improved significantly, increasing efficiency across the school."

**Mark Smith – Technical Services Manager**

Cheadle Hulme School, Greater Manchester, England

"I would recommend it highly for independent and international schools. I can't think of an MIS system that would do a better job. Everything we want to do we can do with iSAMS, and we can now provide a better education for our pupils."

**Richard Marchant – Principal**

New English School Kuwait, Jabriya, Kuwait

"iSAMS fulfilled all our criteria and we liked how we could add modules as required over time or tap into other systems on the Marketplace to add even more depth of functionality. It was hard to say no to iSAMS becoming our school's new management information system."

**Sheila Stamp – IT Manager**

Discovery Bay, Hong Kong

"We thought we'd have to make some compromises with iSAMS, since there were then very few state schools using their system... However, it has proved to be reliable and teachers like it. It allows us to manage all the data and processes we need, with minimal change to current procedures."

**Chris King – Data and Exam Manager**

Aylesbury Grammar School, England

**2005**

iSAMS officially launches, offering the first web-based MIS on the market, and welcoming Rugby School and Warwick School

**2008**

iSAMS receives growing interest from some well-known schools and we welcome our first Prep School

**2009**

iSAMS goes global as we welcome our first International Schools

**2010**

Only 5 years since forming, iSAMS is rapidly becoming the system of choice

**2011**

We welcome our 100th client

**2014**

We welcome our 300th school, including our first Grammar School

**2015**

We launch our suite of multi-lingual Mobile Apps, compatible on iOS and Android

**2016**

We are recognised as the leading MIS supplier to Independent Schools, and we introduce the iSAMS Marketplace

**2017**

Over 850 schools, academies and MATs have chosen iSAMS as their trusted MIS partner

**2018**

We launched our Wellbeing Manager and Data Protection modules, plus our fully integrated, online accounting solution - iFinance

**2019**

Even more intuitive than before, our improved user interface and secure single sign-on MIS now supports 950+ schools in over 75 countries

**2020**

iSAMS joins the IRIS Software Group and we're proud to welcome our 1,000th school to our growing community, which now spans more than 80 countries.
